

OPPORTUNITY FOR COMMUNITY INPUT Finavera Renewables Wind Energy Projects

Finavera Renewables is hosting open houses to obtain community input on four proposed wind energy projects located near Chetwynd and Tumbler Ridge.

The purpose of the open houses is to provide information on the projects, our planning process and schedule. It will also be an opportunity for people to help us identify potential impacts to environmental or community values so that we can look for ways to avoid, minimize or mitigate them in advance of Environmental Assessment review and final project design.

We invite Chetwynd and Tumbler Ridge area residents, businesses, community and recreational groups to provide input at the following open houses:

WEDNESDAY, MAY 9, 2007

5:00 p.m. – 8:00 p.m.

Cottonwood Hall,
Chetwynd Rec Centre
4550 North Access Rd., Chetwynd

TUESDAY, MAY 15, 2007

5:00 p.m. – 8:00 p.m.

Room 5, Tumbler Ridge Community Centre
340 Front St., Tumbler Ridge

Community feedback can be provided by attending the open houses or accessing the consultation materials and mail-in feedback form at www.finavera.com. We will consider this input along with technical and financial inputs as we continue to develop these proposed projects.
